- The participating farmers need to attend all scheduled training sessions and meetings to ensure the success of the project.
- Regular updates and feedback on farm activities should be provided to the project management team.
- This form is designed to enhance the overall quality and effectiveness of the agricultural contract, ensuring accurate data collection and better management of the contract farming scheme.

TIAMIN RICE LIMITED CONTRACT FARMING AGREEMENT

AN INITIATIVE OF TIAMIN RICE FOR UDUBO FARMERS

This Farming Contract Agreement ("**Agreement**") is made and entered into on this _____ day of _____, 2024, between:

Tiamin Rice of 13 km Bauchi - Maiduguri Road, Hauwa Sani Marshal House, Yuli Town, Ganjuwa LGA, Bauchi State (hereinafter referred to as "**Tiamin**")

and

Udubo Farmers Association Address: Udubo Village, Gamawa LGA, Bauchi State (hereinafter referred to as "**Farmers**")

RECITALS

WHEREAS, Tiamin is the owner of a 10,000 hectares farmland cleared and ready for cultivating paddy;

WHEREAS, Tiamin possesses expertise, resources, and technology including a robotic automatic seedling plant and mechanised transplanters, combine harvesters and other machinery and modern agricultural equipment that are necessary for the cultivation of paddy;

WHEREAS, the Farmers are a collective of experienced local farmers within and around Udubo who are seeking to cultivate paddy on the provided farmland;

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, the parties agree as follows:

1. **Allocation of Farmland**

1.1 Tiamin agrees to provide a portion of its 10,000 hectares of farmland, cleared and ready for paddy cultivation, to the farmers.

1.2 The farmland will be allocated to the Farmers in clusters of 50 or 100 hectares for easy management and strategic oversight.

2. **Responsibilities of Tiamin**

2.1 Tiamin shall be responsible for the land preparation using its state-of-the-art equipment and machinery.

2.1 Tiamin shall process and nurture the rice seeds using its Robotic Automatic Seedling Plant to the required stage that the seedling is ready for transplantation.

2.2 When the seedling is ready for transplantation Tiamin shall transplant the matured rice seedling using its mechanised transplanters.

2.3 Tiamin shall provide the right quantity of inputs such as herbicides, pesticides, and fertilizers in accordance with best agricultural practices.

2.3 Tiamin shall provide solar-powered irrigation pumps and sink boreholes or wash-bows where needed for the irrigation of the farm.

2.4 Tiamin shall be responsible for the general management of the entire farm project and provide extension services.

2.5 Together with the Farmers, Tiamin shall ensure the security of the farmland.

2.6 At the point of harvest, Tiamin shall be responsible for harvesting the farmland using combined harvesters.

3. Responsibilities of Farmers

3.1 Farmers shall be responsible for the daily maintenance of the farm up to the maturity stage of the paddy, which includes but is not limited to:

a. Watering
b. Weeding
c. Monitoring for pests and diseases
d. Applying inputs (herbicides, pesticides, and fertilizers) and
e. Any other necessary daily activities that will enhance the cultivation of paddy.

4. Economic of Production (EOP) and Equity Contributions

4.1 An Economic of Production (EOP) model as per attached shall be used as a guide towards estimating the equity contributions of Tiamin to the project.

4.2 Tiamin's equity contribution will include the provision of land and its preparation, technology, inputs, irrigation systems, and management services.

4.3 Farmers' equity contribution will be reflected as the labour they provide in maintaining the farmland daily.

5. Profit Sharing Formula

5.1 The yield realized from the paddy harvested shall be shared as follows:

a. Tiamin shall receive an amount of paddy equivalent to its equity contribution as determined by the EOP.

b. The remaining yield shall be shared with the farmer based on the labour he/she has contributed and Tiamin as agreed upon by the Farmers and Tiamin……..???

6. Strategic Considerations

6.1 Clustering the farmland into 50 or 100 hectares ensures better management, efficient resource allocation, and easier monitoring.

6.2 Farmers working in clusters will enhance teamwork, knowledge sharing, and collective problem-solving, leading to higher productivity.

7. Confidentiality

7.1 Both parties agree to maintain the confidentiality of any proprietary information shared during the course of this Agreement.

8. Term and Termination

8.1 This Agreement shall commence on the date first above written and shall continue until the completion of the harvest unless terminated earlier by mutual agreement or breach of contract.

8.2 Either party may terminate this Agreement with a 30-day written notice to the other party.

9. Governing Law

9.1 This Agreement shall be governed by and construed by the laws of the Federal Republic of Nigeria.

10. Dispute Resolution

10.1 Any disputes arising out of or in connection with this Agreement shall be resolved amicably through mutual negotiation.

10.2 If the dispute cannot be resolved through negotiation, it shall be referred to mediation or arbitration in accordance with the laws of Nigeria.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year first above written.
